From the Hon. David Dale Owen, U. S. Geologist. NEW HARMONY, March 28, 1854. Mr. J. H. Samons—Sir: Having examined your specta-cies constructed of concave convex Brazilian Pebbies, I take pleasure in testifying to their advantages over the ordinary glass spectacles. Their superior hardness prevents them being defected by scratches, the peculiar manner in which they are ground and polished, together with their transpa-rency, obviates the strain usually experienced in wearing see, and their coolness especially recommends them to those having weak, irritable eyes.
